Dan,

Thank you very much for your assistance.

Attached is a PDF containing the Substitute Declaration; and, for your reference only, the final draft of the application and the drawings.

You and your co-inventors all signed a declaration for this patent application a few years back. You, David Arfin, and Edward Sese made corrections to the sheets by-hand without initialling and dating the changes, and the USPTO has rejected your signatures because of this informality.

Please review your personal information on the declaration. If you find any errors in your personal information, please cross-out the incorrect parts and hand-write in the correct information and initial and date your changes.

Please print out the formal documents and sign them in BLUE INK. You can sign your own sheet of paper and return it to us independent of the other inventors. We only need the one signed sheet, and you can fax that page with a cover sheet to me at 612-339-3061, or scan and e-mail them to me at jferguson@slwip.com. Please return the original, signed declaration to us via USPS, Fed Ex, etc., to be placed in our file for safe-keeping.

Please let me know if you have any questions or problems with the transmission of these documents. If you have any substantive technical or legal questions, please contact Garth Vivier: 408-278-4041, gvivier@slwip.com.
